

Why **HAMMERHEAD** MARINE DESCALER CONCENTRATE is the #1 choice above all other marine descalers!

Simply the Clear Solution for Keeping Water Systems Operating at Peak Performance!

Easy

- Prevents failure in sea water cooled systems resulting from marine buildup
- Flushes coils without the use of harsh acids like muriatic (hydrochloric) and phosphoric acid
- Does not gas or fume like traditional descalers
- Clear solution will not stain or damage most nautical surfaces
- Ideal for working in tight spaces
- Concentrate mixes 1-to-3 with water for reduced handling at ¼ traditional shipping costs
- Designed for closed-loop recirculation through sea water coils, hoses, and fittings
- Extended saturation option allows Hammerhead to do the work while the service tech does something else.

Advanced

- Formulated to target calcium- removing barnacles, muscles, shells and more without attacking metals
- Actually lubricates and rejuvenates O-rings, gaskets, and hose liners. Will not dry them out like traditional descalers
- The *only* Descaler with emulsifying agents capable of removing oil contamination from sea water systems

Safe for use on equipment containing

-copper-nickel -brass -iron -copper -steel -stainless steel
-bronze -titanium -chrome -rubber -gel coats -fiberglass
-wood -painted surfaces -glass

The *only* product that will not damage aluminum (AL1100) parts.

Environmentally Friendly

Assembled from USDA and EPA recognized biobased building blocks derived from renewable resources, making it a significant contributor to the quality and sustainability of life. **HAMMERHEAD MARINE DESCALER CONCENTRATE** is ideal for use in harbors and marinas seeking state "Green Marina" designation.
